SYMBIOSIS MEDICAL COLLEGE FOR WOMEN & SYMBIOSIS UNIVERSITY HOSPITAL AND RESEARCH CENTRE

Constituents of Faculty of Health Sciences, Symbiosis International (Deemed University)

Re-accredited by NAAC with 'A' Grade 3.58/4 | Awarded Category – I by UGC

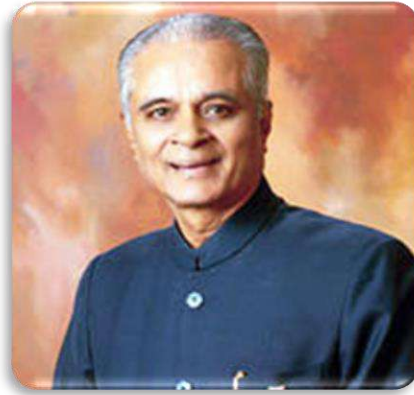

The Symbiosis Medical College for Women is the brainchild of Prof. Dr. S. B. Mujumdar, the Founder and Chancellor of the Symbiosis International (Deemed University). After seeing the biopic about India's first lady doctor, Ms. Anandibai Joshi, the idea of creating a medical college exclusively for women was born. With an objective of women empowerment and contributing to nation building by increasing the number of female doctors, Symbiosis has established this Medical college exclusively for Women under the Faculty of Health Sciences.

The medical college is located at the scenic campus of the Symbiosis International (Deemed University) at Lavale, Pune. The annual intake is 150 students. The medical college and its attached Symbiosis University Hospital and Research Centre have state-of-the-art infrastructure and facilities. Sister Institutes in the Lavale campus like the Symbiosis Institute of Business Management, Pune, Symbiosis Institute of Digital and Telecom Management, Symbiosis Institute of Media & Communication, Symbiosis School of Biological Sciences, Symbiosis School of Photography, Symbiosis School of Culinary Arts, Symbiosis School of Sports Sciences, Symbiosis Institute of Technology, Symbiosis School of Banking and Finance & research centers like Symbiosis Centre for Waste Resource Management, Symbiosis Centre for Stem Cell Research, Symbiosis Centre for Behavioral Studies, Symbiosis Centre for Nanoscience and Nanotechnology and Symbiosis Centre for Medical Image Analysis assist strongly with focus on academics and research.

In addition to the academic infrastructure, excellent residential facilities for residents and staff are available within the campus. The college has a fully air-conditioned library with the requisite array of national and international textbooks and medical journals which form a vital part of the college facilities. As has been the culture of Symbiosis, we believe it is our responsibility to contribute to nation building by providing excellent training and creating the next generation of skilled, ethical, compassionate and caring lady doctors.

1st International Master Class/Preceptorship Course in **SARCOMA PATHOLOGY** In India

Dear Friends,

We are delighted to invite you for the first International Masterclass /Preceptorship course in Sarcoma Pathology in India, to be held on 23rd and 24th January, 2023 in the serene campus of Symbiosis Medical College for Women and Symbiosis University Hospital and Research Centre, Pune, away from the busy city.

You will have an opportunity to actively interact with the International experts, who have significantly contributed in sarcoma pathology, including the recent WHO classification of tumors of soft tissue, bone and gynec pathology. They will share their experience on the recent updates in sarcomas, beyond conventional morphology, including newer immunohistochemical antibody markers and judicious application of molecular techniques, in the form of presentations, as well as showing glass slides of interesting and challenging cases on ten-headed microscope, followed by discussions.

There will be limited seats available.

Dr. Rita Alaggio

Professor
Bambino Gesù Pediatric Hospital
Pathological Anatomy Laboratory
Rome, Italy.

Dr. Francois Le Loarer

Professor
Comprehensive Cancer Center of Bordeaux
Department of Pathology, Bordeaux, France.

Dr. Victor Lee Kwan Min

Associate Professor/Senior Consultant
NUS Yong Loo Lin School of Medicine
Singapore.

Dr. Karuna Garg

Cleveland Main Clinic
USA.

Dr. Bharat Rekhi (Course Director)

Professor & Pathologist,
Tata Memorial Hospital
Mumbai, India

Tentative Schedule

Dr. Rita Alaggio: Recent updates in pediatric soft tissue tumors, focusing on tumors of fibroblastic and myofibroblastic lineage.

Dr. Francois Le Loarer: What is new in undifferentiated round cell sarcomas and rhabdomyosarcomas.

Dr. Victor Lee: Updates in bone tumors and sarcomas. Interesting cases in bone tumor pathology with updates.

Dr. Karuna Garg: Beyond smooth muscle tumors of the uterus.

Dr. Bharat Rekhi: Potpourri of rare, interesting tumors with prognostic and treatment-associated implications.
